

Trouble getting to Canvas?

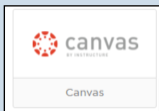

Go to lakotaonline.com/students and click on the **Onelogin** link. NOTE: Make sure you are clicking the *Onelogin* link and **not** the staff login button (see below).

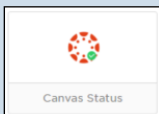

Do not search for Lakota Onelogin through a search engine (Google, Yahoo, etc.) as it may direct you to the wrong link.

Trouble navigating in Canvas?

Your *Onelogin* screen will show icons based on your grade level or class schedule. **If you are in a class using Canvas and you do not have the Canvas button, please notify your teacher.** You should see two icons for Canvas.

Use this icon to go to your classes.

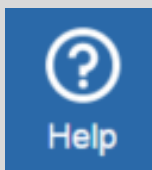

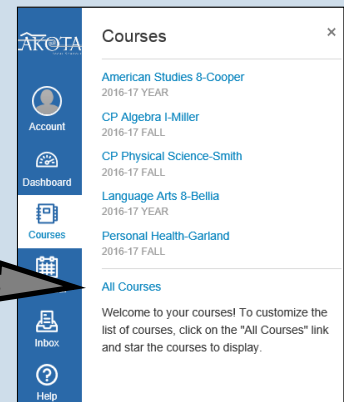

Use this icon to see if Canvas is working properly.

Once you have clicked on the Canvas icon, you should be directed to your Canvas dashboard. Your dashboard shows your current classes.

If you do not see a class on your dashboard,

- Click **Courses** in the blue menu and choose **All Courses**.
- Your list of courses will appear. Click the star next to the courses you would like to see on your dashboard. If you get a message that the course cannot be added, that means the course is not yet published by your teacher.

If you have any issues when working in Canvas, don't forget to refer to your *Canvas for Students* module in your class, or you can click the help icon to search the Canvas Guides for possible solutions or to report a problem. If you report a problem, please include as many details as possible and someone will be in touch with you.
